

International Calling Card Access Numbers

If you have never used your card to make calls originating from other countries you will need to call customer service at 1-800-300-5408 to activate this feature. There is no cost to activate this feature.

To place a call originating from any of the countries listed, please follow the steps below:

1. Dial the primary access number assigned to the country that you are in.
2. Enter your 14-digit pin number when prompted.
3. Enter the number that you would like to call when prompted. If calling back to the United States or Canada enter 1 + area code + the number. If calling to any other country (including the one you are in) enter 011 + country code + city code + the number.

If there is not a primary access number or the primary access number does not work, hang up and follow the steps below:

1. Dial the secondary access number assigned for the country that you are in.
2. An operator will come on the line and ask you for an access code. Give the operator "647" for all countries.
3. Enter your 14-digit pin number when prompted.
4. Enter the number that you would like to call when prompted. If calling back to the United States or Canada enter 1 + area code + the number. If calling to any other country (including the one you are in) enter 011 + country code + city code + the number.

Note: * characters listed as part of the access number refer to a pause in which you should wait for a dial tone before finishing the dialing sequence. (i.e. for Russia you would dial 8 then wait for a second dial tone before entering 10-800-130-1012)

Notes

- 1 Hotels may apply a surcharge or block access numbers.
- # International calling may not be permitted from all over the country.
- + Countries may block access from pay phones.
- ~ Dial International Access code + 800-6246-2462 for customer service while in country.

General Precautions to be aware of when traveling:

- Public phones may require a coin deposit to provide a dial tone and may not return it after the call.
- A ten second delay can be experienced when calling between countries.
- Bolded countries allow you to place calls to the U.S., other countries or within the same country.
- Non-bolded countries allow calling back to the U.S. only.
- A (*) within an access number means to wait for a second dial tone before dialing the rest of the number.
- Local phone companies within each country control call quality.
- International calling may only be permitted from private, public and pay phones that allow international calling.
